Water Filtration Systems

FCCM-TW

2,5" Speciality in-line TWIST TYPE Filter Cartridge with GAC and mineralization media

General Description:

AQUAFILTER FCCM-TW are state-of-the-art carbon blocks. They were designed to fit white 2.5" in-line **TWIST TYPE** housing. Cartridges are made of a mixture of high quality coconut shell activated carbon and mineralization media, which comply to the strict **FDA standards**.

FCCM-TW improving taste and odor of water. Water passing through mineralization media is enriched with natural microelements such as calcium and magnesium.

These beneficial minerals and nutrients are added back (after being removed by RO) to water to create a mineralized, pH-balanced result. These media alkalize and remineralize water, raising its pH. They reduce acidity in the body and produce natural calcium and magnesium ions that can be absorbed by the human body.

These Essential Minerals are vital to our organs. Calcium is beneficial for bones, teeth, heart and muscular system. Magnesium participates in over 300 biochemical processes beneficial to immunological and nervous systems.

Lack of these essential minerals may cause: Fatigue, Insomnia, hair loss, Depression, Diabetes, High Blood Pressure, Asthma, tooth decay, PMS, Migraines, Heart Disease. Cartridges include pre- and post-filters preventing media particles from being washed out.

FCCM-TW effectively protects drinking water supplying systems. Cartridges are dedicated for cold potable water filtration.

FCCM-TW features easy twist-off filter four stage 1/4 turn encapsulated cartridge, all designed to make installation and replacement quick, easy and sanitary.

Each cartridge is pressure tested.

Features:

- High quality
- Competitive Pricing
- Made of safe, food grade materials
- Cartridges are removed with a simple 1/4-turn
- Contains a mixture of GAC and mineralization media
- Improves taste and odor of water
- Produces Alkalized Water
- Provides more energy and improves metabolic process
- Reverses effects of aging, due to reduction of acid wastes
- Gives back minerals such as ionized calcium, magnesium ion, removed by Reverse Osmosis
- Helps the body dissolve wastes and makes it easier to dispose of them safely
- Small orders accepted
- Made in EU with High Quality materials
- Component NSF Certified and FDA CFR Title 21 Compliant
- Cartridges are attractively labeled
- Easy Cartridge Replacements!

CAT #	Size	Max. Flow		Filter life* months
		lpm	gpm	
FCCM-TW	12" x 2.5" (313 mm x 67 mm)	2.8	0.75	3 - 6
FCCM-TW-CP	12" x 2.5" (325 mm x 82 mm x 14 mm)	2.8	0.75	3 - 6
FCCM-TW-CP2	12" x 2.5" (338 mm x 82 mm x 14 mm)	2.8	0.75	3 - 6

* filter cartridge lifetime based on contamination level of potable water.

NOTE

- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
- We strongly recommend regularly scheduled maintenance and replacement of the filter cartridge in order for the product to perform properly.
- Replace the filter cartridge at least every 3 or 6 months (depending on water quality).
- Water filtration systems can help reduce the presence of contaminants. In addition, some water filtration systems can help reduce the presence of microorganisms or other contaminants with potential health effects.

LIMITED WARRANTY: AQUAFILTER warrants that this product is free from defects in materials and workmanship. This limited warranty does not apply to failures that result from abuse, misuse, alteration or failure to properly comply with installation or cartridge change instructions and water quality.
